

Index

This revised index applies *only* to the first printing of *Knitting in the Old Way*. If your book is from the first printing, the first word on page 131 is *Sweden*.

The affected pages are 131–57, in which two electronic files swapped positions. The index supplied here corresponds to the printed page numbers. It complements a corresponding, revised version of page 7 in the Contents.

As an alternative, you may use the Contents and index as printed in the book by simply renumbering pages 143–57 as 131–142 (Chapter 9, Color Stranding; Norway) and pages 131–42 as 146–57 (Sweden).
